Essential tips for a successful entry

- A successful application must address all of the points above. Marks will be allocated only on the evidence provided.
- Use the above headings shown to highlight your answers to those specific questions.
- Include information on your exceptional successes during the year such as business systems, innovations or techniques that have reaped significant benefits. Concentrate on facts that can be substantiated.
- 4 extra pages (in addition to the original 1000 words) of charts and photographs, which are particularly important for the judges to be able to see your successes or innovations, can be included.
- Don't underestimate the presentation! – the better impression you make with the judges could improve your chances in a tight race. Please remember that ONLY THE FIRST 1000 words of core information (and the 4 pages of visuals/photographs of supporting material that you may have provided as an appendix) of your submission will be assessed.
